

GRAVEL TRAVEL – In the documentary series Gravel Travel, Michael Wigge takes the viewer to destinations off the beaten track. He spotlights places which haven't yet been discovered by the tourist market due to the general perception that they are too dangerous, climatically extreme, uninteresting or simply just unknown.

Wigge blends in-depth journalism with entertainment and his unconventional approach takes viewers on a unique journey.

Gravel Travel pilot episode: Israel and Palestine (30 mins)

Wigge discovers the Middle East, a region torn by seemingly endless conflict. He highlights the unknown and beautiful sides of the region, but doesn't look away when it comes to the ever-present conflict between the Israelis and Palestinians.
